COMPANY PROFILE

THE PGI STORY

Perception Gaming Inc. (PGI) was established in 2006, which provides gaming products and services.

We serve global and local casino with our own designing, developing, and manufacturing gaming products which stands one of the most popular and potential business in the world.

Following the corporate culture (RICH) - Responsibility, Integrity, Creativity and Honesty, PGI endeavors to integrate professional know-how, develop kernel technologies, ensure quality control, fulfill customer requirements and promote business relationship.

We are committed to providing industry with the most excellent gaming products, services and proudly bringing people sophisticated operation experiences.

The most fascinating feature of gaming products goes to the "Perfect Combination" of games and machines. Our products particularly accentuate the "physical dealing mechanism" and "real-time image display", which offers regular electronic games more lively and authentic enjoyment and sense of reality.

The "true physical" random number generator and instant image transmission embody the spirit of "SEEING IS BELIEVING" in traditional casino table games.

Since 2006, PGI have been displaying annually its machines and systems in Global Gaming Expo at Las Vegas and in Asian Gaming Expo at Macau. Each year we also attend several world-famous gaming exhibitions and seminars to comprehend fast moving trends of game design in international market.

We are located on the 24th floor of 6750 Office Tower in Ayala Avenue at Makati City, Philippines.

PGI'S EXCLUSIVITY

PGI is the exclusive distributors in the Philippines of JUMBO Technologies who are one of the largest gaming suppliers in the world.

Jumbo has strong presence in the gaming sector throughout the Philippines, Macau, Korea, Cambodia and expanding in other areas of the region. At PGI, we are committed to provide a full range of JUMBO products, including electronic gaming machines, casino management system, and complete technical service support.

With over 1500 employees and more than 50 service centers, Jumbo Technology is pushing the boundaries each year by fulfilling the customer's needs. "With Jumbo, everyone is a winner".

Like JUMBO, PGI is also partnered with exclusive distribution of ALPHABET, who are the manufactures of arcade-like gaming stations with high definition display, embedded sounds and atmospheric lighting combined with master control programs. As they say at ALPHABET that "ALPHABET transports the player into a world of adventure that challenges the senses, stimulates curiosity, and awakens gladiatorial instincts."

GAMA is the largest casino management system provider in Asia. At GAMA they deliver the best in O2O (offline-to-online) marketing, land-based to online gaming solutions, and management systems. GAMA products are GLI-certified to meet the demands of the customers. PGI also holds the right of exclusive distributorship from GAMA Technologies in the Philippines.

- GAMA can deliver all functionalities base on needs.

GAMA Table Management System (GTMS) :

A clear, simple and complete table management system includes accounting, patron and promotion features that help you to improve your casino compactivity. With accounting module, you can easily manage your cash flow with fewer mistakes and less manpower. In additional, patron and promotion modules provide correct strategy for you to reward your valuable players.

Patron

Easy to management member

- Membership management
- Gift exchange system
- Card reader, Scanner, camera, card printing machines
- Reward points to members

Cashier

Easy to control casino chips

- Keeps a record on how much table players change currency for casino chips and vice versa
- The capital function provides operator to ask Vault to fill or credit chips and cash

Dealer

Real-time slot accounting for daily operations

- Records several information, such as game result update game history, casino chip count, drops and member status, via the GAMA system program and report to pit bosses

Pit

Monitoring easy table and member status

- The monitoring includes table performance, chip inventory, drop records
- Provides the function to verify the member behavioral status

Vault

Let Dealer easy run table

- A table dealer sends out a request to the vault when the table is short in casino chips.
